Hi Kris,

I wanted to reach out to you and see if you would like to meet and discuss your concerns with the Yakima County Landfills? When you are sorting through all the documents that you have requested, it does not always provide a clear picture of the actions taken for corrective measures. For instance a measurement at a blower does not show the addition of a flare or

the Tier 2 test that shows concentration was corrected to 7.3 ppmv. If you have some dates and times that work for you please let me know.

Thanks,

Karma
